

BAPTIST HOSTS SOON TO GATHER

General Association Will Meet
at Charlottesville Novem-
ber 16th.

CENTRAL WOMAN'S COLLEGE

Education Commission to Make
Report, and Important Plans
Will Be Discussed.

The Virginia Baptist General Association will convene in Charlottesville, Va., November 16th, and will continue its sessions until Monday evening, the 20th. The annual session will be presided over by Rev. J. L. Rosser, assistant pastor of Grove Avenue Church in this city. Judge W. W. Moffett, of Salem, is the president of the body. Rev. H. S. Smith, of West Appomattox, is the secretary, with Mr. Appomattox, Elyson as assistant, and Captain B. A. Jacob, of Richmond, as the general association's treasurer. The general association fosters missions, benevolence and education. The matter of special interest to come before the body this year will be the report of the Education Commission, of which Dr. R. H. Pitt is president, and Dr. B. C. Henning is secretary. The whole question of a central college for women will be fully discussed, and a definite policy will doubtless be determined upon.

The sessions of the association will be held in the handsome new building of the First Church of Charlottesville, whose pastor, by the way, is a native of this city. This church has a long list of noted pastors, including such men as the late Dr. John A. Broadus, the late Dr. John A. Long, and Dr. A. L. Dickinson, of Richmond.

Those in position to know that the reports to be submitted in Charlottesville will show a most gratifying growth in every department of Christian work, and it is confidently believed that the meeting will not only be largely attended, but full of joy and enthusiasm.

Following is the programme which the Committee on Order of Business will offer for adoption. Some slight changes may be made, but it is likely that in the main this will stand.

Fork Union, 23; Richmond, 0.

FORK UNION, Va., October 30.—Fork Union Academy downed a team from Richmond college here Saturday by a score of 23 to 0.

The contest, which is the first of the season for the Academy, was very exciting, and three or four hundred people attended.

Gatewood, for the Academy, kicked off and started the play at 2 P. M. The Academy team then commenced to make steady gains through their opponents' line, until a touchdown was scored. Then an easy goal was kicked.

After the first touchdown the Academy team had the game all in their favor, gaining the necessary yards almost at will. Gibbs particularly making long gains when given the ball.

Some of the sensational plays for the Academy were the fifty yards runs for a touchdown by Sutherland and a dash for a touchdown by Gibbs. The fine playing of Woodfin, Sutherland, Gatewood, Griffin and Aubrey Gibbs, for the Academy, were features of the game.

Near the conclusion the visitors braced to a certain extent and put up a more stubborn defense. They seem, however, to lack team work. Try them.

Italians in the South.

The Nashville American cannot see that the attempt to secure Italian labor for the South has met with success. And yet the number of Italian immigrants has steadily increased—at least in the lower South and in its seaboard cities. These are contented and prosperous, too, and they will not be lured to the States by these not helpless immigrants, either, but valuable citizens from the start. They will have to be lured to the States within five years—most of them truck farmers. Note the prophecy—Florida Times-Union.

ITALIANS FOR SOUTHERN STATES

Mr Lord and His Association
Would Establish
Colonies.

BEEN SUCCESSFULLY TRIED

Will Lay Matter Before Immigration
Convention at Chattanooga
Next Week.

Mr. Elliot Lord, special agent of the United States Tenth Census on Social Statistics, was in the city last night on his way to Chattanooga to attend the Immigration Convention, which was caused by Governor Montague and other State executives and which will assemble next week.

Mr. Lord represents the Italian-American Agricultural Association, which has for its objects the colonizing of emigrants in the various States. He says the scheme has worked admirably in the North, and he proposes shortly to establish some colonies in the South.

In discussing the subject further, Mr. Lord said:

"It appears to me from different notices I have seen in the papers of the approaching convention at Chattanooga, that there is likely to arise at possible misapprehension in regard to the aims of our association, or the efforts of others now interested in the work of effecting a better distribution of immigration.

Knows of None.

"I certainly know of no organization and no undertaking of any kind which has for its object the dumping of undesirable immigrants in any part of the South, and I do not believe that any such attempt will be made or that it could possibly reach any measure of success if it were made.

"From my investigation and experience, I am convinced that the South has much less to fear from any possibility of the influx of undesirable immigration than it has to apprehend that it may be impracticable to divert to southern agricultural districts even a small fraction of the good colonists, who would be welcomed cordially in any northern State.

"Our association, at least, is assured that a score of openings will be offered willingly for our colonists in New York State if there should be any disposition in the South to withhold help for the settlement of our picked people."

TAMPA BUSINESS MEN DENY IRREGULARITIES

(By Associated Press.)

WASHINGTON, D. C., October 30.—A committee of citizens of Tampa, Fla., consisting of Representative S. M. Sparks, former Representative Robert Davis, D. B. McKay, editor of the Tampa Times; F. C. Bower, former Mayor, and H. C. Macfarlane, called on Secretary Shaw today and presented to him a series of resolutions adopted by the Tampa Board of Trade, denying in the most emphatic manner the truth of certain statements lately published in a prominent tobacco trade journal in New York, alleging, among other things, fraudulent classification of Cuban leaf tobacco at Tampa in favor of the Tampa importers and against the government and against importers at other ports.

The resolutions deny that there has been any more liberal classification of Cuban tobacco at Tampa than elsewhere.

First race—six furlongs—Curly Jim (5 to 1) first, Battle Axe, second; Meddling Daisy, third. Time, 1:38 1/4.

Second race—selling; mile and a sixteenth—Roy (5 to 1) first, Light and Tink, second; T. J. Cox, third. Time, 1:48 3/4.

WIFE'S INTERESTS WAS NOT HER HUSBAND'S

Echo of Swayne Impeachment

Proceedings Favorable to Judge.

(By Associated Press.)

WASHINGTON, D. C., Oct. 30.—The case of United States Judge Charles Swayne, of Florida, who was the subject of impeachment proceedings by the Senate during the last session of Congress, was decided today by the Supreme Court of the United States in connection with a decision in the case of Florida McGuire vs. William A. Blount, involving title to the land near Pensacola, Florida. The opinion in the case was delivered by Justice Day, and sustained the decision of the Court of Appeals for the Sixth Circuit, which was favorable to Blount.

Justice Swayne sat in the trial of this case, and during its progress was requested to excuse himself and not sit in the case, because, as was alleged in the petition, his wife owned an interest in the property. In the course of his decision Justice Day said that no interest by Mr. Swayne had been shown in any competent manner, and no adequate reason for Judge Swayne's retirement from the case had been given.

Open Skating Rink Again.

By Monday night the work of completing the improvements to the big skating rink at the Reservoir will be completed, and the building thrown open to the public. The floor management will be under the care of R. J. Aginton, former manager for Frank C. Bostock when he wintered his animal shows in the Horse Show building here. Mr. Aginton is both well and favorably remembered by the many thousands of persons who visited these shows, and is especially remembered by the many young folks for his especial care of them.

The 1,000 feet of hard rock maple floor was completed Saturday night, and since that time the men have been busy making the surface as smooth as a huge sheet of French plate glass. When the building is opened Monday night the thousands of patrons, in addition to the skaters, will notice
